

Randall Boyes

 rdboyes |  (613) 329 8730 |  randy.boyes@gmail.com |  rboyes |  www.randy.pub |  PhD

Experienced remote-first data and analytics engineer with 8+ years experience building tools, data pipelines, open-source software, and LLM-powered web applications.

Professional Experience

Presage Group, Inc.

DIRECTOR OF ANALYTICS

Burlington, ON (Remote)

2021 - Present

- Designed and analyze observational studies and randomized trials to measure the true causal impact of product and operational changes, identifying and translating important effects for client leadership; recent work has driven a 38% reduction in staff turnover, a 60–80% reduction in procedural non-compliance, and a 15% increase in staff satisfaction in the aviation sector.
- Built internal tooling, automated reporting, and self-serve dashboards using in Python, R, Julia, and JavaScript, reducing time-to-delivery by 40%
- Own company AI policy and strategy, including how generative AI is integrated into our products.
- Designed and maintained the ETL pipelines, REST API integrations, and data models that move client and product data from source systems into analytics-ready stores, with validation checks to keep downstream reporting accurate and reliable.

Sunnybrook Health Sciences Centre

DATA SCIENTIST

Toronto, ON (Remote)

2020 - 2021

- Developed and validated a prediction model for esophageal cancer outcomes using large health databases.
- Published a scientific paper detailing results and specifications of the model ([ASO](#)).

Royal Canadian Dental Corps (with UManitoba)

DATA SCIENTIST

Winnipeg, MB (Remote)

2018 - 2020

- Developed a prediction model to forecast medical readiness in the Canadian Armed Forces.
- Published scientific papers detailing model performance ([MM](#)) and additional findings ([CPJH](#)).

Queen's University

ADJUNCT PROFESSOR

Kingston, ON

2015 - 2019

- Taught seven semesters of graduate-level statistics for students in the MPA and PMPA programs.

Projects and Volunteer Activity

Open Source Software Development

AUTHOR OR MAINTAINER

Remote

2021 - Present

TidierPlots.jl: A 100% Julia version of R's ggplot2

☆ 255

Firebase.jl: A Julia client for Google's Firebase platform

☆ 29

Tidier.jl: Tidyverse-inspired data manipulation in Julia

☆ 595

forester: Forest plots for visualizing meta-analysis in R

☆ 163

Wolfe Island Fire & Rescue

VOLUNTEER FIREFIGHTER

Wolfe Island, ON

2024 - Present

Education

Queen's University

DOCTOR OF PHILOSOPHY: PUBLIC HEALTH SCIENCES

Kingston, ON

2016 - 2023

- Completed coursework in epidemiology, statistics, causal inference, and experimental design.
- Developed models of childrens' active play using geospatial data along with images of their neighborhood.

Queen's University

MSC EPIDEMIOLOGY & BSCH LIFE SCIENCES

Kingston, ON

2009 - 2015

Skills

Programming

Data & Backend

Infra. & Tooling

Statistics/ML

Python | SQL | R | Julia | Stan (Bayesian Modelling) | Rust | C++ | Tensorflow

REST APIs | ETL / Data Pipelines | Data Modelling | Next.js | Shiny | Firebase

Cloud (GCP) | flask (Python web framework) | Docker | Nginx | Git | Typst | LaTeX | Quarto

LLM Applications | Causal Inference | Forecasting | Randomized Trials | Mixed Effect Models | NLP
